TRUCKMATE / DB2 DEVELOPER | FULL STACK DEVELOPER

Database and application developer with hands-on experience using TruckMate ERP and DB2 in a logistics environment. Skilled in developing complex SQL queries, custom Crystal Reports, .NET applications, and ERP integrations supporting accounting, operations, and transportation workflows. Experienced in translating business requirements and logistics processes into reporting and application solutions.

AREAS OF EXPERTISE

TruckMate ERP | DB2 | SQL | Stored Procedures | Complex Joins & CTEs | Crystal Reports | C# | .NET | ASP.NET | ERP Integration | APIs | Excel Automation | Transportation & Logistics Workflows | Financial & Operational Reporting | Requirements Analysis | Data Validation | Troubleshooting

EXPERIENCE

Total Logistics Control Inc., Vaudreuil-Dorion, QC

Full Stack Developer & IT Support Specialist | November 2024 to Present

- Develop and maintain complex SQL/DB2 queries, CTEs, stored procedures, and Crystal Reports using TruckMate data for operational, financial, and management reporting.
- Build and enhance custom TruckMate reports, including gross margin, intercompany, revenue, invoice detail, and accounting export reports formatted for import into ACCPAC.
- Analyze TruckMate data and logistics workflows to translate accounting and operational requirements into SQL, reporting, and application logic.
- Develop .NET services that automate the processing of TruckMate-generated email outputs, load data into internal databases, and support downstream calculations and reporting.
- Work with accounting, operations, administration, and management to gather requirements, investigate data issues, and validate reporting results.
- Supported the later stages of the company's TruckMate transition by adapting reports and supporting applications to the new ERP environment.

BDH Collective, Montreal, QC

Full Stack Developer Intern | October 2024 to November 2024

- Built WordPress websites with Elementor using SEO and design specifications.
- Configured SiteGround hosting, backups, and WooCommerce payment settings.
- Uploaded products to Square and applied approved branding.
