FULL-STACK DEVELOPER | IT SUPPORT & SYSTEMS INTEGRATION

Detail-oriented bilingual IT and software professional with experience in full-stack development, API integrations, ERP-connected systems, SQL reporting, infrastructure support, and business requirement analysis. Skilled at translating operational problems into technical solutions, documenting findings, and supporting reliable internal systems, with strong interest in AWS cloud architecture, scalable systems, customer-facing technical advisory, and cloud migration solutions.

AREAS OF EXPERTISE

Production Support | Application Support | Business Analysis | Systems Integration | API Integration | REST APIs | JSON | SQL | SQL Server | C# / ASP.NET / .NET Core | JavaScript / TypeScript | Node.js | React | Java / Spring | Python | Linux | Windows Server | Networking | TCP/IP | DNS | DHCP | Security Fundamentals | Databases | ERP Integration | TruckMate ERP | Crystal Reports | Technical Documentation | Stakeholder Support | Incident Management | Change Management | Troubleshooting | AWS Cloud Foundations

EXPERIENCE

Total Logistics Control inc, Vaudreuil-Dorion, QC, Canada November 2024 - Present

Full Stack Developer

- Develop and support internal applications, ERP-connected reporting tools, and automation workflows using .NET, SQL Server, Crystal Reports, and TruckMate ERP.
- Analyze business requirements from operations, billing, finance, AP/AR, and logistics users, then convert them into SQL logic, reports, API integrations, and internal system improvements.
- Build and troubleshoot API-based integrations, reporting workflows, data issues, and business-critical tools, including Manifest Manager, Load Tracking, Documents Hub, MacroPoint, and FourKites integrations.

Amazon Laval, QC, CANADA August 2023 - April 2025 | Part-Time

Operations Associate

- Worked in a high-volume, procedure-driven Amazon operations environment.
- Followed safety, productivity, and escalation procedures in a fast-paced shift environment.
- Managed competing priorities while supporting continuous operations.
- Used scanners and internal systems to track inventory and maintain workflow accuracy.

Apptoza Agency / TCS / Bombardier, Dorval, QC, Canada February 2023 - August 2023

Service Desk Technician

- Delivered first-level network and operating system support for enterprise users
- Tracked and escalated incidents using ServiceNow and SCCM
- Assisted users with VPN access, authentication, and account troubleshooting

IntelGenx & Thread Collective, St-Laurent, QC, Canada February 2022- June 2022

IT Technician (Internships)

- Performed PC and Mac deployment, OS installation, and system configuration
- Supported users with network access and workstation issues
- Documented IT procedures and support workflows

Sager Food, St-Laurent, QC, Canada January 2021 - March 2022

Robot / Automation Technician

- Supported automated systems in a continuous-operation environment
- Diagnosed system faults and assisted in restoring normal operations
- Followed strict safety and operational procedures

G&D Mobile Security Dorval, QC, CANADA January 2019 - November 2020

Operations Associate - Secure Production & Inventory

- Worked in a secure, access-controlled production and vault environment supporting sensitive financial card and mailing operations.
- Used SAP inventory tools to support warehouse tracking, material handling, and operational accuracy.
- Followed strict security, safety, and process-control procedures while supporting equipment-based production workflows, including mailing insertion, card merging, and digital printing.

Jamiliah Tech Store, Aleppo, Syria September 2010 –July 2015

Technical Support

- Installed and configured security software.
- Prepared and formatted PCs and Macs for new users.
- Installed engineering and accounting software for students.

MILITARY

Canadian Armed Forces Primary Reserve Enrolled Member May 2026 - Present

- Member of a structured military organization emphasizing discipline, reliability, teamwork, safety awareness, and operational readiness.

EDUCATION

- ACS in Full-Stack Development, 2024, John Abbott College/ QC, Canada
- ACS in Network Administration, 2022, John Abbott College/ QC, Canada
- Master's Degree in Topographic Engineering - Preparatory Stage Completed, 2017
- Bachelor Degree in Topographic Engineering, 2015, Aleppo University, Aleppo, Syria

TRAINING & CERTIFICATIONS

- Google IT Support Professional Certificate - Coursera / Google, 2026
Technical support, networking, operating systems, system administration, Linux, DNS, CLI, troubleshooting, and IT security.
- Cisco Networking Academy - CCNA v7: Switching, Routing, Wireless, Enterprise Networking & Security, 2021
Routing, switching, wireless, VLANs, OSPF, ACLs, NAT, QoS, network security, and troubleshooting.
- AWS Academy Cloud Foundations - Amazon Web Services, 2022
Cloud concepts, AWS core services, networking, security, compute, storage, databases, and cloud infrastructure basics.
